

BEWARE OF ALIENS

You're passionate about your beloved pet. You're proud to be taking care of such a great animal. Did you know that – if our pets end up in the wild, and if they survive – they can become **invasive alien species**? They then can seriously harm the balance of nature & damage the economy.

You as a responsible pet owner can help protect our precious nature: don't release your pet in the wild. Nature thanks you!

Together for healthy nature
